WHAT IS COVERED UNDER THIS WARRANTY?

- Residential Warranty: Residential Warranty: Applicable products will be free from manufacturing defects for as long as you own your home. (Examples of manufacturing defects are improper milling, grading or separation of plies which occur in recommended conditions.)
- Finish Warranty: We warrant that under normal residential conditions and with proper maintenance, our finish will not wear through for as long as you own your home. Gloss reduction is not considered wear through. Therefore, it is not covered under the finish warranty. Finish wear through is defined as 100% finish removal over at least 3% of the area of a total flooring installation.
- Refinishing Warranty: Harris Wood warrants that our prefinished Solid Products can be sanded and refinished up to three times and Engineered products can be sanded and refinished one time. On beveled edged products, stained color will remain on the beveled sides and ends.
- Radiant Heat Warranty: Solid Products are not warranted for use over radiant heat systems. Please see warranty chart for information on Engineered products and approved species.

EXCLUSIONS

- All warranties are limited to the original retail purchaser.
- Harris Wood cannot warrant a color match of our products to other wood products, such as stairs, stair railings, cabinets, trim, molding, etc.
- In order to maintain the recommended relative humidity (35%-55%) inside the home, installation of a humidifier or dehumidifier may be necessary. The floor is designed to perform in an environmentally controlled structure. Varying levels of humidity and temperature will affect the performance and appearance of wood flooring. Care should be taken to control the environment the flooring is exposed to. Heating season brings low humidity (dry air) that can lead to shrinkage, separation or squeaking in the wood floor. Non-heating season brings high humidity (humid/wet air) that can lead to expansion, cupping, buckling, or squeaking. Problems arising in flooring exposed to conditions outside of these parameters are not covered under warranties.
- Natural wood characteristics such as mineral streaks, small knots, grain variations, etc. are normal characteristics and are not construed as defects. Nature's Trademarks leave no two pieces of wood the same and color or other variations can occur. We cannot warrant against natural variations, nor the normal minor differences between color samples and the color of installed floors. Due to the nature of hand scraping and unique distressing, these processes leave no two pieces the same. Samples may slightly vary from installed flooring. This is not a cause for a warranty claim.
- Only approved cleaning and maintenance products are appropriate for use on our products. Use of non-approved cleaners and maintenance products or any oil soap or ammonia-based cleaners will void all warranties. For textured/distressed/scraped products, it is recommended to vacuum and sweep before use of approved cleaner. For a current list of approved products please call 1-800-258-5758.
- The warranty does not cover damage arising from accidents, abuse, abnormal wear, spike heels, grit, scratches, dents, abrasives (salt, sand, glass etc.), rubbing, excessive heat or excessive dryness.
- Gloss reduction is not considered wear-through. Therefore, it is not covered under the finish warranty.
- The warranty does not cover color changes to any products which result from UV or artificial light. American Cherry, Walnut and imported exotics are especially susceptible and may darken or lighten due to UV or artificial light exposure.
